

## ERAIFT's "Alumni", gathered in the Network of Africans for Sustainable and Integrated Development (RADDI), visit their Alma mater Saturday 01 October 2022

On Saturday, October 1, 2022, following a week rich in capacity building training on professional integration issues, the ERAIFT Alumnis, gathered within the African Network for Sustainable and Integrated Development (RADDI), visited their Alma Mater. This delegation was made of 50 members of different DESS classes (from the 3rd to the 9th class) as well as those of the 1st and 2nd Master classes. On this occasion, they expressed their gratitude to ERAIFT and its partners, especially the European Union and the GIZ for their financial support to the training of ERAIFT students and the logistical and financial support that made it possible to bring together the ERAIFT Alumni in Kinshasa for six days. This training workshop was also an opportunity to discuss more about the outreach of the « RADDI » around the world.

Professor Jan BOGAERT, President of the ERAIFT's Administrative Council, thanked the European Union, the GIZ and all other partners for their support to the school. He then reminded the Alumni of the importance of this training workshop, which shows how closely ERAIFT monitors the employability of its products.

He also encouraged the Alumni to take the ERAIFT's values higher in their respective countries and to communicate regularly with the School's authorities.

This visit finished with the handing over of the certificates of participation to the participants and followed by exchanges of encouragement from the RADDI focal points of the 11 countries represented (Liberia, Benin, Togo, Cameroon, Chad, Burundi, CAR, DRC, Republic of Congo, Niger, Mali) with the 3rd and 4th Master's class students still in training.

ERAIFT thanks the European Union and GIZ for their support to the institution.
