

ERAIFT holds its 15th Board Meeting Monday 22 May 2023

On Monday 22 May 2023, ERAIFT organised, in presential and videoconference, the 15th meeting of its Board of Directors (BD), to discuss mainly the implementation of the recommendations of the 14th Board, the implementation of the AGRINATURA/ERAIFT project financed by the European Union, the evolution of the academic activities and the financial situation of the school.

After exchanges and discussions on the different points on the agenda, the administrators were satisfied with the progress of the AGRINATURA/ERAIFT project, whose financial and narrative reports were accepted by the European Union, and with the improvement of the School's financial situation since the impact of COVID 19 in 2020. In addition, some recommendations were made, including the diversification of funding sources through the mobilisation of own funds.

The next Board meeting will be held in November 2023

ERAIFT sincerely thanks the administrators for their involvement in the school's development. It expresses its gratitude to all its technical and financial partners for their support and renewed confidence.
